Package Contains: 1 transmitter & AC adapter, 1 headset receiver, 2 audio jacks, external microphone and user manual.

Easy Installation:

Just plug the transmitter into the audio output jack on your TV, VCR, CD player or stereo player. Make sure there are good batteries in the headset, switch the headset on and listen at the sound level best for you. Please Note: This product is best used if the line of sight is clear. Make sure the TV transmitter is in clear view and not tucked away in a cabinet or blocked in any way.
